

At MagiKats Tuition our students are at the heart of everything we do. We provide tailored small group maths and English tuition, from pre-school to GCSE, to help boost the children's confidence, close academic gaps or stimulate growth with extra challenges. Our success is in seeing the children reach their full potential, and we see this each week in our students as they positively engage with their studies and really enjoy coming to learn.

Our brand-new location in Nansledan has also welcomed a growing number of new students since the summer break, and it has been a pleasure to see both old and new students relishing in the fantastic fresh space. We've witnessed the joy in their eyes as they kick off their shoes and sink their feet into the soft carpet, opting for the colourful bean bags or cosy rocking chair. An exciting addition is our 'Wow Wall' which celebrates the children's individual achievements; be it their learning mindset or academic goals. This purposeful, tranquil and positive space has been lovingly created and designed with the student's growth at the core, and we invite you to come visit us to see it.

MagiKats Tuition Newquay was originally set-up in Nansledan in 2020 and has established itself as a well-known maths and English education centre in Cornwall. We have successfully opened our second centre in Truro and now have an incredible team of eight highly-professional, caring and skilled tutors. With many years of diverse teaching experience our tutors collaboratively create engaging sessions and are truly passionate about each and every child. Alongside this, we are delighted to introduce the recently created service, Kernow Tuition.

At Kernow Tuition we have an unwavering commitment to unlock the full potential of every student. That's why our approach focusses on taking small steps to help students who may find it challenging to access traditional schooling. Our brilliant team support their journey towards integrating into a suitable educational environment. We firmly believe that every individual deserves access to an outstanding education, and we work with schools around Cornwall, local authorities and families to support students who are not fully attending school to re-engage the children with school, and most importantly, their love of learning.

Our mission is to empower every child to shape their educational journey, guided by their interests and placing emphasis on building positive connections through face-to-face tuition and mindfulness to rekindle their joy in learning. We are dedicated to progressing at the child's pace, ensuring that each session leaves them feeling truly successful.

Don't just take our word for it, here are just some of the recent reviews from parents whose children either receive MagiKats or Kernow Tuition.

"Can't recommend MagiKats highly enough, can't put into words the help they've given us with our son. Took a boy that hated maths and English and engaged him in a way of learning that has turned him into a confident student who looks forward to learning each week."

"My 10-year-old daughter's grasp of maths and her confidence have improved so much in just one term. She got an award from her headteacher at school for most improved in a subject and she genuinely enjoys the sessions and loves the rewards system."

"MagiKats are very professional, yet have a gentle, kind and approachable persona. The team have built an incredibly strong relationship/friendship with my son. He now has his thirst for learning back and is very enthusiastic about what he's been achieving."
