

## A PR AND MARKETING AGENCY WITH A PURPOSE

I founded Voice Communications over 15 years ago with the mission to create a leading PR and marketing agency that is driven by purpose and has a focus on nurturing relationships between people.

In 2018, I followed my gut and trusted my heart to move to the place I love. I relocated to Cornwall in search of a better work-life balance and to spend more time in and by the sea. At the time some doubters told me that moving away from Essex, where I had founded the business, and working remotely from my team was a business risk. Four years later and after hard work, relationship building, and lots of fun, we have now expanded our team to include seven employees within the South

West, have an amazing network of friends and business partners, and a fantastic bunch of clients.

It was because of this growth that the move to our new location on Stret Kosti Veur Woies, was the perfect next step. I am a regular customer of both Shiva Café and the amazing Shiva Studio and the whole team has long been fans of Love of Lemons, Teylu and Ladyvale. As a certified B-Corp, the planet, and its people are at the forefront of everything we do here at Voice Communications. The commitment to sustainability and low-carbon building within this development is hugely important to our firm. We were thrilled to be able to take over the previous premises of our

We are overjoyed that we have moved our Cornwall office to the wonderful Nansledan, an area of Newquay that I have always loved, and I'm delighted that Voice's growth has made this possible.

Voice Communications

fellow B-Corp agency Solve in a community as vibrant and welcoming as Nansledan.

We have formed a great bond with the Solve team after meeting them last year and I know just how much our values align with one another, so it feels right that we are the new custodians of their former office. We can't wait to settle in and integrate ourselves into this wonderful community - the future of Voice Communications is looking very bright.

In addition to our Cornwall office, Voice Communications has an office in Layer Marney Tower in Essex and a hub in Bristol.

We have had an exciting start to the year that not only included an office move but also the acquisition of Cornish creative communications agency Barefoot Media. Looking forward, we are excited to continue working with amazing local clients such as Oltco, Padstow Christmas Festival, The Harbour Fish & Grill and The Cornish Oven as well as continuing to cultivate relationships within the Newquay / Nansledan area.
